

### 2019 SAME Honolulu Post Pacific Industry Forum and Icebreaker Reception

May 13-14, 2019 | Ala Moana Hotel and Gordon Biersch

The 11th annual SAME Honolulu Post Pacific Industry Forum was held at the Ala Moana Hotel on May 14 and paired with an ice breaker reception at Gordon Biersch on May 13. It was a record year for attendance with more than 280 participants. SAME sustaining and individual members, non-members, and senior Federal, State and County Government representatives from Hawaii, the mainland, and Japan met together for program briefings, a luncheon, and small business networking opportunities.

Key speakers included Lt Col Brian Ellis, USINDOPACOM J44 Chief of Infrastructure who provided a vision and strategy for the 377,000 military and civilian personnel serving in this region, along with an overview of near-term challenges and investments.

Rear Admiral John J. Adametz, Commander, NAVFAC Pacific, served as the keynote luncheon speaker. After providing a brief overview of challenges that his command is facing, Rear Admiral Adametz earnestly asked the industry to provide several solutions. A number of innovative approaches were discussed during the engaging luncheon session.

In addition to Lt Col Ellis and Rear Admiral Adametz, speakers from the US Air Force, USACE, USARPAC, and NAVFAC Pacific discussed their upcoming opportunities. Booz Allen Hamilton provided a technical workshop on the use of Artificial Intelligence on engineering projects, while the State of Hawaii Strategy Officer/Broadband Director provided an overview on the impacts of 5G on the State. Another mixed panel of local government and industry representatives discussed programs on clean power and energy resiliency. Small business representatives from the Small Business Administration, USACE, and NAVFAC Pacific also conducted an opportunity development workshop.

Proceeds from the ice breaker and forum help support SAME Honolulu Post's scholarship program, construction camps, and youth outreach programs for Hawaii students pursuing their education in engineering or architecture.

The 2020 Pacific Industry Forum will be held on May 11-12, 2020. It will be an informative event with excellent networking opportunities. Please mark your calendar so you may be able to join us.

**2019 RAYTHEON MATHCOUNTS NATIONAL COMPETITION**

ASME-HI has reported on MATHCOUNTS® activities in Hawaii. This article is on the May 13, 2019 National Competition held at the Hilton Orlando Lake Buena Vista. MATHCOUNTS publishes a partial results sheet of the national competition, listing only the top 23 teams and the 57 highest ranked Mathletes. Hawaii was not able to get on this sheet.

The top three teams were first Massachusetts, second Florida, and third California. The top two finalist of the Countdown Round were first Daniel Mai of Massachusetts, and second Suyash Pandit of Oregon. The results sheet can be found on the MATHCOUNTS website, [www.mathcounts.org/national-competition](http://www.mathcounts.org/national-competition).

Taking place 50 years after the first moon landing, the 2019 Raytheon MATHCOUNTS National Competition commemorated the moonshot achievements of yesterday by celebrating the moonshot thinkers of tomorrow. Raytheon is the Title Sponsor of the MATHCOUNTS National Competition.

**ASME HAWAII GROUP LEADERSHIP TEAM (GLT) 2019-2020**

An official GLT for ASME fiscal year July 1, 2019 to June 30, 2020 remains unfilled. The previous year GLT will remain in office until the official 2019-2020 team is determined. According to ASME Group Operation Guide, each Group leadership position on the GLT shall be nominated for a 1-year term, with IDEALLY a maximum of 3 consecutive years of service in the particular position.

**LOOKING BACK**

An unsolicited commentary... My participation in the ASME Hawaii Section began in 1989. I would like to consider it as quite active from that time although I have not attended meetings in

several years now, choosing to work on the sidelines. I have seen the changes made over this 30-year period. Our meeting places changed as a new Chairman took office. Many faces came, stayed awhile, and then left whether for more time with family or other reasons. Our incentive for participation stayed the same "Promoting mechanical engineering," and complimentary pizza and soft drinks. Hawaii Section membership totaled over 300 in 1989, but has declined to the current 200 plus, which also includes deceased members. Participation by The Department of Mechanical Engineering, UHM, and Student Section are at a high, while participation by graduate MEs is at a low. There were periods when Hawaiian Electric MEs were members starting at the bottom and working their way up to chairman. This no longer happens.

Yes, it is not the same. Up to about 2014, ASME Sections were structured in Regions. We were part of Region IX (West Coast states) with a full time Regional Director and supporting staff helping the sections within the region. Regional Administrative Conferences were held annually with each section given a turn to host the conference. Each section had their own website. With ASME's reorganization came the desired less risk to the Society, less staff payroll, and in my opinion, with this reduced risk and costs came less section support from the Society. – E. Chang

#### Kaha Native Plant Garden

On Saturday, July 13th, seven YMF members volunteered with Hui o Ko'olaupoko at the Kaha Native Plant Garden in Kailua. This project was developed in 2007 and aimed to improve the environment by replacing grass and invasive species with native Hawaiian plants to help with soil stabilization, biofiltration and water conservation along the stream bank. The volunteers worked hard to help maintain the garden by trimming trees and pulling weeds.

Hui o Ko'olaupoko is a non-profit organization whose goals include restoration and low impact design projects directed at protecting water quality. To meet these goals, their projects include riparian restoration, low-impact retrofits and residential rain gardens. Kaha Garden is maintained solely by community volunteers, and we thank our YMF members for being a part of the cause!

Department of Transportation Highways Deputy Director Ed Sniffen presented on the Hawaii Road Usage Charge Pilot (HIRUC). With the HIRUC, DOT hopes to create a more sustainable source of funding for the safety, upkeep, and improvement of our roads in the future. Currently, roadway upkeep and improvements are funded through federal grants and a gas tax paid at the pump. However, as cars become more efficient and electric and hybrid vehicles more prevalent, the demand for carbon fuel is expected to decrease. As such, there is a need to find alternative sources of revenue that would be more sustainable than the current system. One approach that DOT is proposing is the elimination of the gas tax and instead a charge based upon the amount of miles driven. A series of community meetings were held at various locations across the state earlier this year to gather public opinion and to provide additional information on the program. These concerns were included as considerations as DOT plans the details of the pilot program which will be on a voluntary basis.

After the presentation, Section Administrator Cathy Leong announced the result of this year's officer elections. This upcoming term's President will be Jennylyn Tapat, Kelly Akasaki will serve as Vice-president and Jasmine Kaehuaea-Teramae as Secretary/Treasurer.
